

## STRATEGIC LOAN SERVICES

---

We work with your Credit Union to meet its current and future Sales and Acquisition needs. Through our SLS Nationwide Network of Credit Unions, we can source and sell a wide variety of asset classes geographically. In most cases, our loans are available as Participations in Pools and Individually. By leveraging our Credit Union Network, we can establish relationships in Bulk and Flow. We work with our Partner Credit Unions to determine the best course of action for their Balance Sheet needs. And we believe that collaborative lending allows individual Credit Unions to offer more choices to their members and further the Credit Union philosophy of “People Helping People.”
